

CML Conference in Vail, June 16 – 19, 2009

Peggy Cole, Council Member at Large

Because I found the 2008 CML Annual Conference so rewarding (please see my report), I planned to attend this Conference. But when I received the detailed schedule of sessions in April, I decided that it would not be worth *my* attending this year.

Please note that my decision not to attend does not imply a judgment on the potential value of the conference for other members of City Council and City employees.
